PROMOTION

Come hang at Virtual Bronco Bash with us tomorrow! It's gonna be loads of fun. I'll be there from 4-5 and the other directors will be around later. We are all super excited to chat with you about stuff. Other than that, I'm working towards making content about voting with PIRGIM to get the word out. If you want to be involved in creating content for that, please let me know!

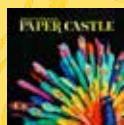

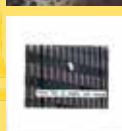

MUSIC

Andrew Buczek*Music Director**widr.musicdirector@gmail.com**Virtual Office Hours: From 12PM-2am**

The endless stream of...whatever this semester consists of, continues. Thankfully there are still new releases to focus on, in particular the new Blackpink album in which they apparently decided just to go completely American pop. It goes hard though, so I'm cool with that. Maybe music shouldn't be made by real people anymore. Hatsune Miku's worst song is better than your best song, K/DA released a single song that got 200 million streams, they're not real either. Products of the age of whatever this era will be called in fifty years. Please refer to the nonsensical nature of this paragraph for an illustration of the mental space occupied by college students this semester.

**I almost always have discord open and can be contacted in the "music-corner" chat or the adjacent voice/video channel*
